Instruction

In this practice session, we are going to work with the style attribute in HTML to add CSS styles to the lists and tables that we created in the last two lessons.

1. We've already done a bit of a setup for you by adding some scaffolding code for you. You can start working with the mark-up already created for you inside the body element.
2. Add a style tag to the h1 element at the top. Set the color as 'crimson' and the font-size as 48px as shown below.

```
<h1 style="color: crimson; font-size: 48px;">The Style  
Attribute</h1>
```

3. Next, move on to the undefined list. Use the style attribute on the ul element and define the color as 'green' and a list-style-type as 'circle'.

```
<ul style="list-style-type: circle; color: green">  
  <li>Mercury</li>  
  <li>Venus</li>  
  <li>Earth</li>  
  <li>Mars</li>  
  <li>Jupiter</li>  
</ul>
```

4. Do the same for the next list (ol tag) and set the color as 'hotpink' and the list style type as 'upper-roman' as shown below

```
<ol style="list-style-type: upper-roman; color: hotpink">
```

```

    <li>Mercury</li>
    <li>Venus</li>
    <li value="5">Earth</li>
    <li>Mars</li>
    <li>Jupiter</li>
  </ol>

```

5. Next, let's add some styles to the table underneath. Start by specifying a font-size on the table element using the style attribute as shown below.

```
<table style="font-size: 24px;">
```

6. Similarly, add background color (grey) for the thead tag.

```
<thead style="background-color: grey;">
```

7. Finally, add a background color to each tr tag in the tbody. Let's set this to light gray as shown below.

```

<tr style="background-color: lightgray;">
  ...
</tr>
<tr style="background-color: lightgray;">
  ...
</tr>
<tr style="background-color: lightgray;">
  ...
</tr>

```

8. Your final code should look like this.

```

<body>
  <h1 style="color: crimson; font-size: 48px">The Style
  Attribute</h1>

  <ul style="list-style-type: circle; color: green">
    <li>Mercury</li>
    <li>Venus</li>
    <li>Earth</li>
    <li>Mars</li>
    <li>Jupiter</li>
  </ul>

  <ol style="list-style-type: upper-roman; color: hotpink">
    <li>Mercury</li>
    <li>Venus</li>
    <li value="5">Earth</li>

```

```
<li>Mars</li>
<li>Jupiter</li>
</ol>

<table style="font-size: 24px">
  <thead style="background-color: grey">
    <tr>
      <th rowspan="2">Sr. No.</th>
      <th rowspan="2">Name</th>
      <th colspan="2">Marks</th>
    </tr>
    <tr>
      <th>Score</th>
      <th>Percentage</th>
    </tr>
  </thead>
  <tbody>
    <tr style="background-color: lightgray">
      <td>0101</td>
      <td>John Doe</td>
      <td>98.01</td>
      <td>98.01 %</td>
    </tr>
    <tr style="background-color: lightgray">
      <td>0102</td>
      <td>Mark Handsome</td>
      <td>92.01</td>
      <td>92.01 %</td>
    </tr>
    <tr style="background-color: lightgray">
      <td>0103</td>
      <td>Alice Nunch</td>
      <td>97.67</td>
      <td>97.67 %</td>
    </tr>
  </tbody>
</table>
</body>
```
